**Erratum to: SpringerPlus (2016) 5:1861
DOI 10.1186/s40064-016-3543-0**

After the publication of our article (Ma et al. 2016), we became aware of an error in the “Fusion transcript detection and validation” section of our Results.

“Two gene fusions had been found by previous studies: UBE2L3-KRAS (Wang et al. 2011) expressed in all three cell lines and TAF15-AP2B1 (<http://54.84.12.177/Pan-CanFusV2/Fusions!fusion>) specific expressed in Du145 (Additional file 3). The other fourteen fusions were novel discovered.”

Should read:

“Two gene fusions had been found in prostate cancer in previous studies (Wang et al. 2011; Klijn et al. 2015): UBE2L3-KRAS and C14orf166-SLC25A21 were expressed in all three cell lines in our study (Additional file 3). The other fourteen fusions are reported here for the first time in prostate cancer.”
